

EX-PRES'T TAFT TALKS ON PACT

Says Thirteen Reservations
Will Not Materially Affect
the Peace Treaty.

NEW YORK, Nov. 10.—Thirteen out of the fourteen reservations to the peace treaty proposed by the senate foreign relations committee do not affect materially the value of the covenant and probably would be accepted by the other powers, in the opinion of former Pres't Taft expressed in a speech before the league for political education. The fourteenth reservation proposed by Sen. Reed of Missouri, is so drastic, Mr. Taft declared, that it is impossible of acceptance by other nations.

Sen. Reed's proposal was interpreted by the former president as meaning: "I am glad to join your league if you are bound by it and I am not. I shall be glad to get all the benefit out of it so long as it does not require me to do anything." The reservation declares that the United States will not be bound by any question that involves its vital interest or honor submitted to the league or its tribunals of an international character.

After an analysis of the other reservations which he said, would be equally effective if couched in a more courteous, more diplomatic and less offensive tone. Mr. Taft referred to report that Pres't Wilson would refuse to submit the reservations to the other powers if they were adopted.

Treaty Valuable.
"I sincerely hope," he said, "that the democratic minority in the senate and the president will not take any such view and that if they have been so inclined they will change their minds. The treaty will have enormous value with qualifications thus proposed. It will be a great step forward. It won't accomplish the millennium. It will not abolish war. The machinery of it will not work without considerable creaking. It will doubtless fail in some cases where its framers hoped it might be very effective. But the inestimable benefit of getting the nations together in a league and inspiring them to use the public opinion of the league furnishes for that purpose ought to make us willing to pay such a price as these reservations are to set the league going."

Kills Self in New York Hotel

NEW YORK, Nov. 10.—Cary R. Miller, American vice consul to Stockholm, shot and killed himself in his suite in the Waldorf Astoria hotel late Sunday.
The body, with a bullet hole through the right temple, was found last night by Mrs. Miller on her return from church. By the side lay a revolver. The police said last night they were unable to find any motive for Mr. Miller's act. Among his papers was found a passport indicating that he had planned to sail soon for Sweden.

ESTHONIA DELEGATES TO DISCUSS LEAGUE OF BORDER STATES

HELSINGFORS, Nov. 10.—Seven representatives of Esthonia, headed by Foreign Minister Piip, left Sunday for Dorpat to begin tomorrow the preliminary discussion of a league of border states and the possibility of reaching an agreement with the bolsheviks.

The Left and Lithuanian governments also will be officially represented, and Poland, the Ukraine and Finland, unofficially.

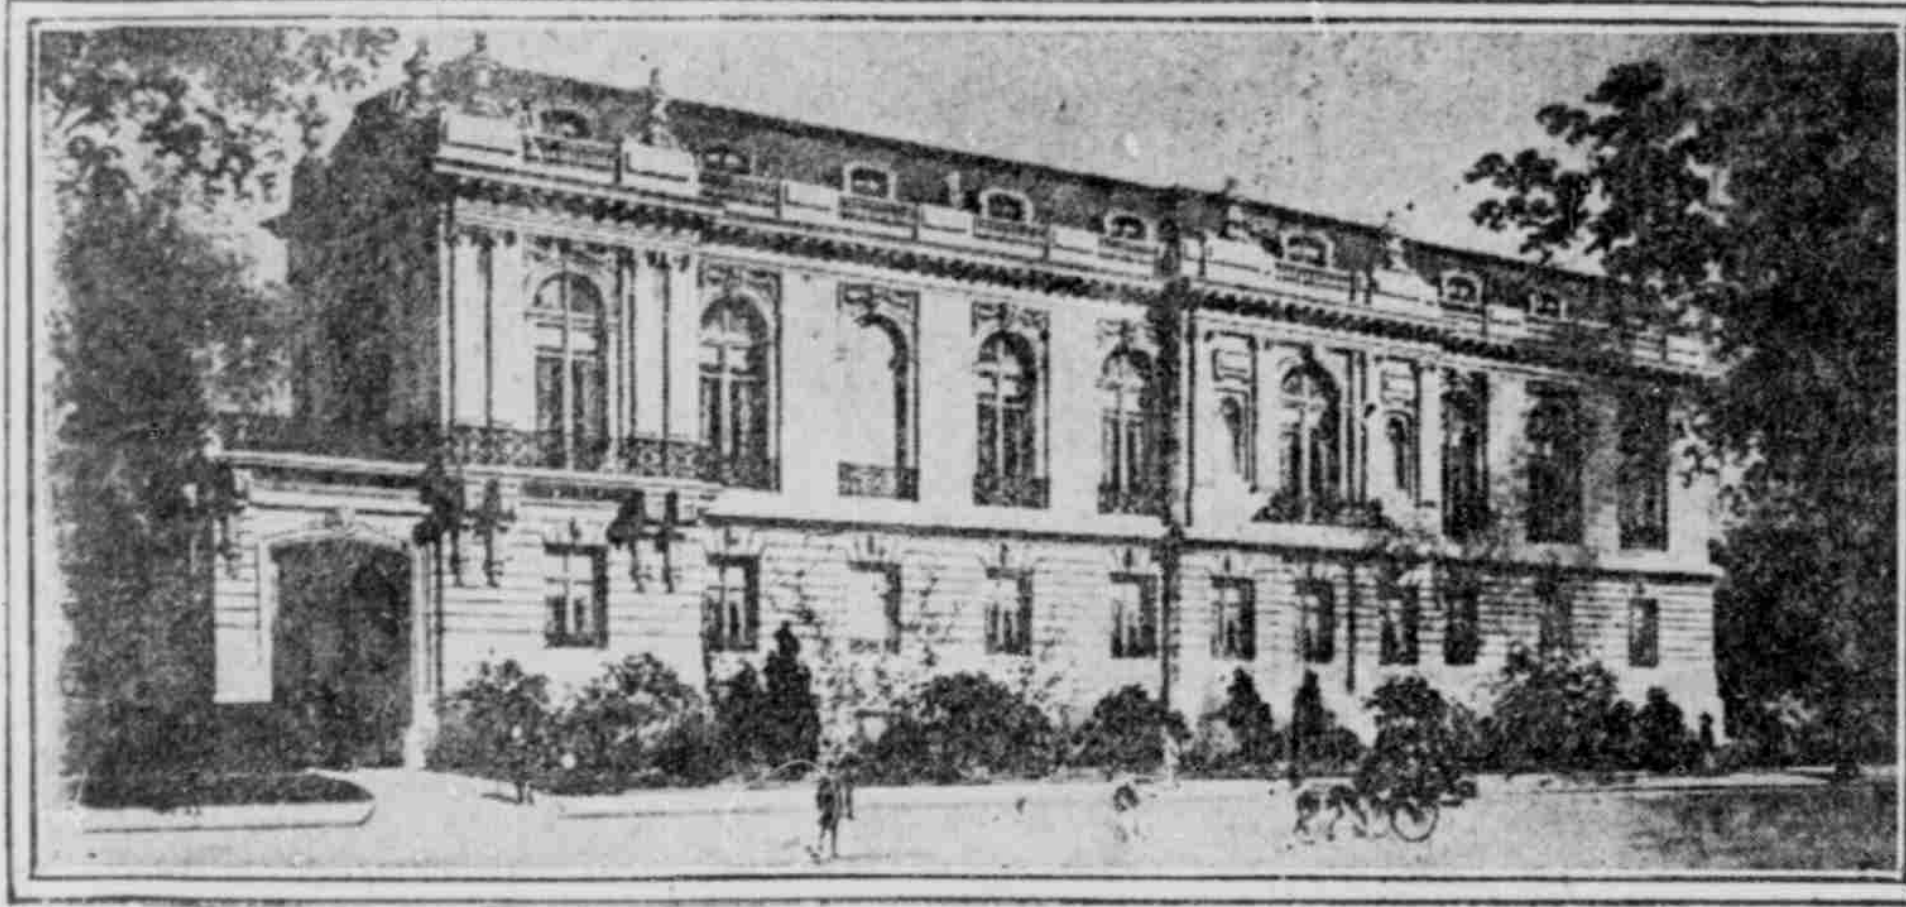

The Associated Press is informed that if any agreement is reached between the conferees, the bolsheviks will be invited to send representatives to Dorpat.

Where Prince of Wales Will Stop

RESIDENCE OF MR. PERRY BELMONT, WASHINGTON, D. C. The Prince of Wales will make his headquarters at the Belmont residence during his stay in Washington. The home has been turned over to the state department for the entertainment of the royal visitor and his suite. The building is one of the most attractive in Washington. It occupies an entire triangular block and was constructed with the view of being used for elaborate entertainments.

NAMES HOOSIERS TO NAVY SCHOOL

Congressman Hickey Selects
Three Sets of Nominations
For Annapolis.

BY LOUIS LUDLOW.
News-Times Washington Correspondent.
WASHINGTON, D. C., Nov. 10.—Rep. A. J. Hickey, of the thirteenth Indiana district made three sets of nominations to Annapolis naval academy Monday as follows:
1.—Principal Robert John Paulsen, North Judson, first alternate Marion Honck Kelley, Knox.
2.—Principal Vine Ditts, 315 W. Eighth st., Michigan City; first alternate Robert H. Head, Waukegan.
3.—Principal Russell Alfred Thompson, Lyner, first alternate Stephen Freeman, Jr., Syracuse; second alternate, E. Martin Smith, rural route No. 5, Elkhart.

Fish Hatchery Bill.
Hickey also introduced Monday a bill appropriating \$75,000 to establish a fish cultural station or fish hatchery at some point on Lake Michigan, probably Michigan City. There is no federal fish culture station now in Indiana. He said, the urgent demand for greater food supply and the high cost of living argue strongly for the establishment of a hatchery on the southern point of Lake Michigan, where the conditions are excellent for such a project. At one time white fish and lake trout were very plentiful in that section of the country but of late years they have been very scarce.

COMMUNISM SAID TO BE GROWING IN POLAND

BERLIN, Nov. 10.—The Vorwaerts says it has received information indicating that the communistic movement is rapidly gaining strength among the wage earners of Poland. Lack of employment and shortage of food are stated to be the chief contributory causes. The food situation still continues serious, it is alleged, despite the supplies received from America.

According to the most recent figures, the number of unemployed in Warsaw is fully a hundred thousand. In Lodz and other large industrial centers it is reported that the ranks of the workers are constantly increasing.

The growth of communism has been greatly accelerated by the return of late of a number of Polish communist leaders from Moscow who have proved very apt pupils of Russian methods.

BEGINS WAR ON SNOBS WITH DANCING CLASSES

LONDON, Nov. 10.—Dr. Charles F. Knight has begun an avowed war on snobbery in Witham, reputed to be one of the most exclusive places in Essex, through the introduction of dancing classes for young and old. "This winter all Witham will be dancing," Dr. Knight declared. "I believe we are defeating class distinctions. We have here the daughters of vicars and medical men and they are dancing with shop and factory girls, soldiers and others. Classiness cannot survive that."

G. O. P. Squandering \$20,000 Daily on Political Nonsense

Special Session Has Cost
Three Million and Nothing
Is Done.

BY JOHN J. CARSON.
WASHINGTON, Nov. 10.—The failure of the republican majorities in the senate and house of representatives to either carry out their announced legislative program or enact useful legislation except when spurred and prodded by Pres't Wilson, was the subject of two democratic addresses in congress. Sen. Joseph T. Robinson pointed out that but two important measures had come before the senate in the six months of the special session—the treaty of peace and the railroad bill—and that no action had been taken on either. Rep. James E. Aswell cited official figures to prove that the expense to the people of republican inaction is a minimum of \$20,000 a day, or \$3,000,000 already expended in the current expenses of this special session.

Rep. Aswell spoke of the "unpardonable filibuster" by the republicans in the last congress, which prevented passage of many important pieces of appropriation and other legislation.
Republican leaders, still eager to harass the president, during two months howled incessantly for a special session of congress," continued Mr. Aswell. They got it. They have had it for six months; they have done nothing and now they cry quit. Is it any wonder that the president foresees this situation and appealed to the country for a democratic congress to support him in prosecuting the war, and to hold the confidence of the country by enacting straightforward, efficient legislation during the reconstruction period through which we are now passing?

MINER FORCED TO GIVE UP WORK

Couldn't Raise Hand as High
as His Head—Gains Twenty-five Pounds.

"I was in such an awful condition from my twelve years of troubles that I had to quit work entirely but now since I have taken Tanlac I have gone back to my work and never felt better in my whole life," was the unusual statement made by William A. Cruickshank of Bartonville, Ill. recently.

"You see, the dampness of the mine had given me a very worst kind of rheumatism," he continued. "What had been troubling me for about twelve years. My elbows hurt me so bad that I couldn't raise my arm as high as my head, and when I sat down to the table I could hardly lift a cup of coffee to my mouth, and my arms and elbows pained me so bad I had to keep them bandaged in all sorts of applications to try and get some relief so I could sleep a little at night. My legs also gave me a lot of trouble and at times I could hardly get about, they hurt me so bad. And this wasn't all, my stomach was all out of order and I was never able to eat anything and enjoy it for thinking about the pains and belching that would bother me for hours after every meal. I didn't have any appetite and fell off in weight terribly, and went about all the time with a dull heavy feeling about me."

"This was my condition when I gave up mining coal for it was a case of give up or die, and I guess I would have still been in this shape if it hadn't been for a friend who told me about Tanlac and got me to take it. Well, sir, I hadn't taken but a few doses before I could just feel the trouble leaving me and my appetite coming back. And now I haven't a trace of rheumatism in my whole body and I don't believe any man can look at me and tell that I ever had it in my life. I am eating anything set before me and digesting it without the least bit of trouble, and I never have a dull, heavy feeling any more. I sleep fine at night, have my back at work quite a while and am able to mine as much coal as ever in my life. When I started taking Tanlac I weighed about one hundred and eighteen pounds and now I tip the scales at one hundred and fifty-three, and have never felt better before."

Tanlac is sold in South Bend by the Central Drug Store and in Mishawaka by the Red Cross Pharmacy.

South American Labor Protests Representative

BUENOS AIRES, Nov. 10.—The Federation Obrera Regional Argentina, or Argentine Labor Federation, has issued a declaration repudiating as the representative of Argentine workmen Americo J. Dalino, who was named by the government as the Argentine labor delegate to the international conference at Washington.

The federation's declaration asserts that the government in choosing a delegate did not consult the federation which is the central organization of workers of the country, and that it failed to act in this respect in accordance with the League of Nations convention.
